What is "Climax Lawn Sand"?

A unique combination of carefully dried and finely ground chemicals, which if sprinkled over the grass possesses the remarkable property of destroying Moss, Chickweed, Plantains, Dandelions and all other weeds on Lawns, Tennis Courts, Golf Greens etc., at the same time promoting the growth of the finer grasses to such an extent that the spaces previously occupied by the disfiguring weeds are quickly covered by a perfect sward of fine close-growing grass, of good color, which will retain its freshness under adverse conditions of continuous use and drought. Over five thousand American users during the past season have proved to their entire satisfaction that it is so.

When this article was first offered to the American Public we received hundreds of inquiries. How is it possible for any preparation to destroy weeds and not the grass? The explanation is as follows:

The chemicals used in "Climax Lawn Sand" are of such a nature, that they will readily destroy any plant to which they can adhere: Weeds as a rule have broad hairy leaves or grow in mattings so that powder can easily remain on the plants for several hours, while the grasses are smooth and finebladed and do not accept the sand as adherence.

TESTIMONIALS

Southport, June 8, 1908.

Gentlemen :

I have great pleasure in testifying to the satisfactory results obtained from the use of your "Climax Lawn Sand," in a plot of grass in our park, which was heavily covered with all kinds of weeds. This plot was dressed with your "Lawn Sand" and in a matter of three weeks, a most marvelous result was shown: Not a single weed was to be found on the plot, only a rich dark grass, of quite a different green, to that on parts which had not been dressed with the preparation, showing the Sand to be also a strong fertilizer. The plot in question is on public view and has been since the experiment was started, so that I can safely recommend the "Climax Lawn Sand" as a thorough Weed Destroyer and Fertilizer and I wish you all the success with it that it deserves.

Yours respectfully,

Signed, WALLACE SHUTTLEWORTH.

We have used up the keg of "Lawn Sand" and it seems to be doing the work well. Kindly send me immediately two more kegs.

Mrs. F. NORTON BIGGS,
Hinsdale, Ills.

Please send me a 56 lb. keg of "Climax Lawn Sand." The sample I have used has proven very successful; also the "Climax Weed Killer" on roadway and pavement.

MARY CHENEY,
So. Manchester, Conn.

In regard to the "Climax Lawn Sand," which the writer tried last year, we wish to say that it gives extremely satisfactory results. On a portion of my lawn, in front of the porch, I had considerable plantain leaves, which, after an application of "Lawn Sand," disappeared entirely and did not seem to appear again this year. It is highly satisfactory.

Truly yours,
PAUL F. RICHTER,
Philadelphia, Pa.

July 8, 1908.

I have used the sample of "Climax Lawn Sand" you sent me some time ago and it seems to do the work very well. I want to try a 112 lb. wooden keg and you will please ship the same by fast freight. Truly yours,

F. L. COLBY,
Detroit, Mich.

Recently I ordered from you a small package of "Climax Lawn Sand" and found it to work very well. I would like to get some more of it.

H. E. EYMAN,
86 Chestnut St., Mutley, N. J.

Gentlemen :

Kindly send me a 56 lb. keg of "Climax Lawn Sand." Address as before to Worcester, via B. & A. I have tried it and find it does just what you claim, although I must confess I didn't take much stock in it at first. Enclosed is my check to bal.

Yours sincerely,

H. H. MERRIAM,
Worcester, Mass.

Dear Sirs :—

Please send me a 56 lb. keg of your "Climax Lawn Sand." I find its action on weeds wonderful.

Mrs. FRANK HINCKLEY,
Bangor, Maine.

August 13, 1908.

Dear Sirs :—I have bought several kegs of your "Lawn Sand," and can highly recommend it, both as a Fertilizer and Weed Killer.

Yours truly,
O. DANNESBOE.

I have been trying your "Lawn Sand" on a small space of very weedy lawn and it has killed off all the weeds.

Mrs. E. A. RUSSELL,
Lake Forest, Ill.

Please send me at the address below twenty-eight pounds of "Climax Lawn Sand" at your earliest convenience. I have tried the small sample which you sent me a short time since, and it seems to work fairly well.

Yours truly,
WM. NOTTINGHAM,
Syracuse, N. Y.

Having found "Climax Lawn Sand" quite successful on trial, I enclose \$5.00 and would like 56 lbs. sent to me.

Truly yours,
Mrs. JOHN HAY,
Newbury, N. H.

I have received the sample of "Climax Lawn Sand" and have given it as much of a trial as I conveniently could with such a small quantity. I think it is effective.

HENRY A. SHERWIN,
Cleveland, Ohio.

DANDELIONS DESTROYED

Root and Branch, on Lawns, Drives, Paths, Roads etc.

By "CLIMAX WEED KILLER"

A single application will destroy it and prevent its reappearance forever.

By its use weeding is dispensed with, and the surface remains in a firm and bright condition.

POWDER FORM: Packed in airtight tins. Mixes readily in cold water, without heat or fumes, convenient to store and handle. It will keep for an indefinite period.

DIRECTION FOR USE

Dissolve the powder to a liquid (Tin No. 1 is enough to make 25 gallons) and then employ the

"Wikeham Weed Eradicator"

a simple machine, as per cut enclosed, to do the work. It is a tubular staff 36 in. long, fitted with a self-acting valve, so arranged, that when filled with the "Climax Weed Killer" by simply pressing the point into the plant, enough liquid is infected into the tissues to destroy it.

It is made of brass, especially hardened and bronzed, fitted with a perfectly tight Screw Cap. When not in use the point is protected by a ferule which can be taken off when desired.

It is the simplest and most effective instrument ever made.

You pierce the point of the Eradicator into the very crown and root of the Dandelion and the root is forever destroyed without the least injury to the surrounding grasses or plants.

No bending, no scratching, no weight and no digging. A pastime for the young and old as well.

COST: "Climax Weed Killer" is put up in Tins of 2 sizes.

Tin No. 1 (enough to make 25 gallons of liquid)	-	\$1.50
" " 2 (" " " 100 " " ")	-	3.00
Wikeham Weed Eradicator (complete)	-	4.00
